### PROFILE

I am a Flutter Developer with 8 months commercial experience background with Flutter, Dart and mobile application development. I worked at 2 companies as an Intern and one of them still I am currently working. Due to my study I have moved to Warsaw, Poland from Uzbekistan. Besides that I have been developing some personal projects with Flutter (Link in below). All my projects are available on my GitHub account.

### WORK EXPERIENCE

#### Intern Flutter Developer on-site

Hilol-Nashr

01.06.2022-15.07.2022

- I worked with a team to develop company's mobile apps:
- apps developed using Provider as a State Management
- this app developed for Uzbek market
- this app is Islamic app to provide people with news and useful content
- working with UI/UX and backend teams

#### Intern Flutter Developer remote

MyGo

01.10.2022-01.03.2023t

- Develop a regional taxi app for Uzbek market like Uber and YandexTaxi
- use Bloc and Cubit as a State Management
- working with UI/UX and backend teams

### Personal Projects

#### NewsAPP

- Develop a news reader app
- developed with Bloc and Cubit as a State Management
- collaborated with free newsapi.org
- app has not published to Play Market but available on my GitHub -> [Link](#)

#### Credit Card UI

- Simple Flutter UI for adding credit card screen
- using Lottie Animation if card added successfully
- available on my GitHub -> [Link](#)

#### Pokemon's App

- Simple app to see Pokemons' data
- using Bloc and Cubit as State Management
- Saving data when app starts to Hive
- Data come from Hive when device is not connected to net
- available on my GitHub -> [Link](#)
